Minnesota Rules: Amendments and Additions

NOTICE: How to Follow State Agency Rulemaking in the State Register

The *State Register* is the official source, and only complete listing, for all state agency rulemaking in its various stages. State agencies are required to publish notice of their rulemaking action in the *State Register*. Published every Monday, the *State Register* makes it easy to follow and participate in the important rulemaking process. Approximately 80 state agencies have the authority to issue rules. Each agency is assigned specific **Minnesota Rule** chapter numbers. Every odd-numbered year the **Minnesota Rules** are published. The current 1999 set is a 13-volume bound collection of all adopted rules in effect at the time. Supplements are published to update this set of rules. Generally speaking, proposed and adopted exempt rules do not appear in this set because of their short-term nature, but are published in the *State Register*.

An agency must first solicit **Comments on Planned Rules** or **Comments on Planned Rule Amendments** from the public on the subject matter of a possible rulemaking proposal under active consideration within the agency (*Minnesota Statutes* §§ 14.101). It does this by publishing a notice in the *State Register* at least 60 days before publication of a notice to adopt or a notice of hearing, or within 60 days of the effective date of any new statutory grant of required rulemaking.

When rules are first drafted, state agencies publish them as **Proposed Rules**, along with a notice of hearing, or a notice of intent to adopt rules without a hearing in the case of noncontroversial rules. This notice asks for comment on the rules as proposed. Proposed emergency rules and withdrawn proposed rules are also published in the *State Register*. After proposed rules have gone through the comment period, and have been rewritten into their final form, they again appear in the *State Register* as **Adopted Rules**. These final adopted rules are not printed in their entirety in the *State Register*, only the changes made since their publication as Proposed Rules. To see the full rule, as adopted and in effect, a person simply needs two issues of the *State Register*, the issue the rule appeared in as proposed, and later as adopted. For a more detailed description of the rulemaking process, see the most current edition of the *Minnesota Guidebook to State Agency Services*.

The *State Register* features partial and cumulative listings of rules in this section on the following schedule: issues #1-13 inclusive; issues #14-25 inclusive; issue #26 cumulative for issues #1-26; issues #27-38 inclusive; issue #39, cumulative for issues #1-39; issues #40-51 inclusive; and issues #1-52 (or 53 in some years), cumulative for issues #1-52 (or 53). An annual subject matter index for rules was separately printed usually in August, but starting with Volume 19 now appears in the final issue of each volume. For copies or subscriptions to the *State Register*, contact Minnesota's Bookstore, 660 Olive Street (one block east of I-35E and one block north of University Ave), St. Paul, MN 55155 (612) 297-3000, or toll-free 1-800-657-3757.

Adopted Rules

A rule becomes effective after the requirements of *Minnesota Statutes* §§ 14.05-14.28 have been met and five working days after the rule is published in the *State Register*, unless a later date is required by statutes or specified in the rule. If an adopted rule is identical to its proposed form as previously published, a notice of adoption and a citation to its previous *State Register* publication will be printed. If an adopted rule differs from its proposed form, language which has been deleted will be printed with strikeouts and new language will be underlined. The rule's previous *State Register* publication will be cited.

KEY: Proposed Rules - Underlining indicates additions to existing rule language. ~~Strikeouts~~ indicate deletions from existing rule language. If a proposed rule is totally new, it is designated "all new material." **Adopted Rules** - Underlining indicates additions to proposed rule language. ~~Strikeout~~ indicates deletions from proposed rule language.

Department of Health

Adopted Permanent Rules Relating to Asbestos Abatement

The rules proposed and published at *State Register*, Volume 32, Number 36, pages 1666-1672, March 3, 2008 (32 SR 1666), are adopted with the following modifications:

4620.3100 DEFINITIONS.

Subp. 34. Verifiable evidence. "Verifiable evidence" means a signed statement verifying that the applicant has completed a training course or a refresher course. The statement may be provided in hard copy or electronic form or may be other electronic evidence such as an excerpt from a database. The statement or electronic evidence must be submitted by the provider of a training course, or by a government agency in another state charged with certifying or licensing asbestos workers if the course was taken in another state.

Commissioners' Orders

Various agency commissioners are authorized to issue "commissioner's orders" on specified activities governed by their agency's enabling laws. See the *Minnesota Statutes* governing each agency to determine the specific applicable statutes. Commissioners' orders are approved by assistant attorneys general as to form and execution and published in the *State Register*. These commissioners orders are compiled in the year-end subject matter index for each volume of the *State Register*.

Commissioner's Orders

The sidelines of said easement shall be prolonged or shortened to terminate on the north line, on the east line and on the south line of said Southwest Quarter of the Southeast Quarter.

and

WHEREAS, such lands contain Southern Mesic Prairie (UPs23), Southern Wet Prairie (WPs54) and Southern Basin Meadow/Carr (WMs92) native plant communities and habitat for rare plant and animal species including **small white lady's slippers** (*Cypripedium candidum*), a state-listed species of Special Concern, and

WHEREAS, the most effective means by which such lands can be protected and perpetuated in their natural state and used for educational and research purposes in such a manner as will leave them conserved for future generations is by designation as a Scientific and Natural Area;

NOW THEREFORE, I, Mark Holsten, Commissioner of Natural Resources, pursuant to authority vested in me by *Minnesota Statutes* §§ 84.033, 86A.05, subd. 5, 97A.093 and other applicable laws, do hereby designate the above-described lands as the Langhei Prairie Scientific and Natural Area.

FURTHERMORE, the Langhei Prairie Scientific and Natural Area is designated as a Public Use unit, open to the public for nature observation and general educational and research activities.

IT IS FURTHER ORDERED that the provisions of Minn. Rules 6136.0100 through 6136.0600 shall apply to the above-designated area.

A copy of this order shall be filed with the Secretary of State.

Dated at St. Paul, Minnesota, this 13th day of October, 2008.

MARK HOLSTEN, Commissioner
Department of Natural Resources

Official Notices

Pursuant to *Minnesota Statutes* §§ 14.101, an agency must first solicit comments from the public on the subject matter of a possible rulemaking proposal under active consideration within the agency by publishing a notice in the *State Register* at least 60 days before publication of a notice to adopt or a notice of hearing, and within 60 days of the effective date of any new statutory grant of required rulemaking.

The *State Register* also publishes other official notices of state agencies and non-state agencies, including notices of meetings and matters of public interest.

Minnesota Pollution Control Agency

Public Notice on Draft/Proposed Air Emission Facility State General Permit

NOTICE IS HEREBY GIVEN, that the Commissioner of the Minnesota Pollution Control Agency (MPCA) proposes to reissue a general permit governing both those nonmetallic mineral processing operations which permanently operate at a single location as well as those temporary operations (sometimes referred to as portable crushing spreads) that move from one location to another. Both of these are referred to in the general permit materials by the term “stationary source”, which is defined in *Minnesota Rules* 7005.0100, subp. 42c. The reissuance of this general permit is authorized by *Minnesota Rules* 7007.1100, subp. 1, which allows the MPCA to reissue a general permit if “numerous and similar stationary sources are subject to substantially similar regulatory requirements.” The general permit applies to new and existing sources.

The proposed general permit will replace the existing stationary nonmetallic mineral processing general permit which was issued in 1996. Current Permittee of that general permit will need to apply for the new general permit or an individual Part 70, state or registration permit, as applicable.

The stationary source eligible for the proposed general permit are non major sources as defined in *Minnesota Rules* 7007.0200. The general permit covers stationary sources required to obtain permits under *Minnesota Rules* 7007.0250. The proposed general permit contains federally enforceable conditions to limit the Potential-To-Emit (PTE) of each pollutant (particulate matter less than 10 microns (PM₁₀), particulate matter less than 2.5 microns (PM_{2.5}), carbon monoxide (CO), nitrogen oxides (NO_x), sulfur dioxide (SO₂), lead (Pb) and ozone (VOC)) to less than 90 tons per year (tpy); therefore, each stationary source covered by this general permit is a non major source as defined in 40 CFR § 52.21 Prevention of Significant Deterioration (*Minnesota Rules* 7007.3000). Also, each stationary source is a non major source as defined in 40 CFR § 52.24 (*Minnesota Rules* 7007.4000) for all pollutants. Finally, each stationary source is non major under federal Operating Program in 40 CFR pt. 70 (*Minnesota Rules* 7007.0200), and an area source under National Emission Standards for Hazardous Air Pollutants (40 CFR pt. 63) thus this is a state permit.

Each stationary source eligible for the proposed general permit may include the following types of equipment and activities for which a permit is required by *Minnesota Rules* 7007.0150: crushers (subject to fines crushing limitation), screens, wet screening operations, transfer operations (including belt conveyors, enclosed truck/railcars loading operations, bucket elevators, storage bins, stackers, ladders, chutes, classification screws feeders, pneumatic systems, and bagging operations), internal combustion engines, sand heaters, air separators, storage piles, paved roads, unpaved roads, parking lots, bulldozers, loaders, and other related vehicles, and other insignificant activities listed in *Minnesota Rules* 7007.1300, subp. 2 and 3 and conditionally insignificant activities listed in *Minnesota Rules* 7008. A nonmetallic mineral processing stationary source constructed, modified and operated under this general permit may produce or process only: Crushed and broken limestone; crushed and broken granite; crushed and broken stone; construction sand and gravel; recycled concrete, recycled asphalt pavement; and the initial steps in producing manufactured sand.

A stationary source is not eligible for the proposed general permit, or ceases to be eligible for the proposed general permit, if any of the following are true:

1. The stationary source has an emission unit other than those described above;
2. The stationary source has an emission unit subject to a Standard of Performance for New Stationary Sources in 40 CFR pt.

Official Notices

- 60 already adopted other than 40 CFR pt. 60, subp. OOO for nonmetallic mineral processing, subp. Kb for liquid storage tank, subp. IIII for compression ignition internal combustion engines and subp. JJJJ for spark ignition internal combustion engines;
3. The stationary source is affected by a 40 CFR pt. 63 National Emission Standard for Hazardous Air Pollutants (NESHAP) already adopted other than 40 CFR pt. 63, subp. ZZZZ for reciprocating internal combustion engines;
 4. The stationary source is located in or comes to be located in a PM₁₀ maintenance area;
 5. The stationary source includes a type of control equipment not covered in the proposed general permit;
 6. The stationary source emits at any time a 12-month rolling sum of more than 100 tons of PM, PM₁₀, PM_{2.5}, CO, VOC, NO_x, SO₂ and Pb.

A summary of the highest allowable PTE rates in tpy for each stationary source described in the proposed general permit are as follows:

Pollutant	PM	PM ₁₀	PM _{2.5}	NO _x	VOC	CO	SO _x	Pb
Total Facility PTE	90	90	90	90	90	90	90	90

As allowed by *Minnesota Rules* 7007.1100, subp. 5, the MPCA has developed a source-specific permit application that does not include all the required information given in *Minnesota Rules* 7007.0100 to 7007.1850. The differences between the application requirements and this general permit application are discussed in the Technical Support Document (TSD). The MPCA has developed application forms tailored to this general permit which the MPCA plans to use. The application forms and worksheets will be updated periodically, but will continue to contain the elements discussed in the TSD needed to determine eligibility for the general permit.

The overall general permit contains each applicable requirement that could apply to eligible stationary sources. Based upon the information in the permit application, certain geographic requirements that do not apply to a particular source's location will not be included in the general permit issued to that source. If a source is located outside the Minneapolis-St. Paul Air Quality Control Region, it will receive a general permit that does not include requirements that only apply to that region. Similarly, for sources located in the Minneapolis - St. Paul Air Quality Control Region, requirements that only outside the Twin Cities region will not be included in the general permit issue to the source. This will reduce unnecessary material in the general permits issued that could confuse a source.

The preliminary determination to reissue the air emission general permit is tentative. There are four formal procedures for public participation in the MPCA's consideration of the general permit. Interested persons may (1) submit written comments on the proposed general permit; (2) request that the MPCA hold a public information meeting; (3) request the MPCA hold a contested case hearing; and/ or (4) submit a petition to the Commissioner requesting that the MPCA Board consider the permit matter.

The decision whether to reissue the permit and, if so, under what terms, will be presented to the MPCA Board for decision if: (1) the Commissioner grants the petition requesting the matter be presented to the MPCA Board; (2) an MPCA Board member requests to hear the matter prior to the time the Commissioner makes a final decision on the permit; or (3) a request for a contested case hearing is pending. Otherwise, the Commissioner will make the decision.

Persons who submit comments or petitions to the MPCA must state (1) their interest in the permit application or the draft permit; (2) the action they wish the MPCA to take, including specific references to the section of the draft permit they believe should be changed; and (3) the reasons supporting their position, stated with sufficient specificity as to allow the MPCA to investigate the merits of the position. As described in *Minnesota Rules* 7000.1800, persons who submit requests for a contested case hearing must also state the issues they propose to address in a contested case hearing, the specific relief requested or resolution of the matter, and the reasons (which may be in the form of proposed findings) supporting an MPCA decision to hold a contested case hearing. Failure to comply with these rules exactly may result in a denial of the request. The decision whether to hold a contested case hearing will be made under *Minnesota Rules* 7000.1900. Most public libraries throughout the state have copies of the current Minnesota Rules. They are also available on the Internet at: www.revisor.leg.state.mn.us.

Public Comment: The public comment period commences October 28, 2008 and terminates November 26, 2008. Interested persons or groups may submit comments in writing to the MPCA, St. Paul Office until 4:30 p.m. on November 26, 2008. Evidence of timely receipt includes a date/time stamp imprinted on the first page of the written comments by the first floor information and reception area of the MPCA or by the Industrial Division support staff, or receipt by fax (651-296-9707) or email.

Comments, requests and petitions should be mailed to:

State Grants & Loans

In addition to requests by state agencies for technical/professional services (published in the State Contracts Section), the *State Register* also publishes notices about grants and loans available through any agency or branch of state government. Although some grant and loan programs specifically require printing in a statewide publication such as the *State Register*, there is no requirement for publication in the *State Register* itself. Agencies are encouraged to publish grant and loan notices, and to provide financial estimates as well as sufficient time for interested parties to respond.

Grant Applicants

Have you checked up on all the “active” state grants? For *State Register* subscribers a “Contracts & Grants” section is available that lists all grants and contracts open for bid. Open the *State Register* and click on Bookmarks in the upper left corner. You will see a list of ALL the current rules, with an INDEX, and previous years’ indices, as well as a list of all contracts and grants open for bid. Subscribe and receive LINKS to the *State Register*. You also receive Subscriptions cost \$180 a year (an \$80 savings). Here’s what you receive via e-mail:

Minnesota Department of Health
in partnership with
Minnesota Department of Education
Health Careers Promotion Grant Program
Notice of Grant Opportunity

The Minnesota Department of Health (MDH), in partnership with the Minnesota Department of Education, is seeking applications from qualifying consortia or partnerships between school districts, health and/or long term care employers, and higher education. The grants program is intended to assist consortia to develop intergenerational programs to encourage middle and high school students to work and volunteer in health care and long-term care settings.

To qualify for a grant, a consortium shall demonstrate its ability to: 1) implement a health and/or long-term care careers curriculum that provides for the integration of academic and work based learning opportunities in a variety of clinical areas including long term care options; 2) align the health careers curriculum with the National Health Care Skill Standards, Minnesota Health Care Core Curriculum and the Minnesota Academic Standards (available upon request); 3) offer program for high school students that provide training in health and long-term care careers with credit that articulate into post-secondary programs; 4) provide assistance and support to middle and junior high schools interested in developing information and exploration programs about health and long term care careers; 5) establish a Health/Long-term Care Careers Advisory Group to support the continued development of the program; 6) provide technical support to the participating health care and long-term care employer(s) to enable the use of the employer(s) facilities and programs for kindergarten to grade 12 health and long-term care careers education; 7) include program planning, design, marketing and implementation activities, and demonstrate evaluation and sustainability.

\$120,515 is available in 2009. Prior grant awards have ranged from \$5,000 to \$20,000. Grant awards will be announced by December 26, 2008, for the contract period beginning January 1, 2009, though December 31, 2009.

Applications are available at the following web site: <http://www.health.state.mn.us/divs/chs/grants.htm>

Prospective applicants who have questions, and/or would like a written copy of the application form may contact the Office of Rural Health and Primary Care, Minnesota Department of Health Phone: (651) 201-3851 or toll free: 1-(800) 366-5424.

Deadline for proposals is **4:00 p.m. CST on Monday, December 1, 2008**. No late proposals will be considered.

Minnesota Department of Health
Office of Rural Health and Primary Care
Minnesota Rural Flex Grant Program
Notice of Grant Availability

The Office of Rural Health and Primary Care, Minnesota Department of Health, is seeking grant applications from eligible organizations for the Minnesota Rural Flex Grant Program. Activities that promote regionalization of health care services, improve access to quality health care services, and provide for the development and/or enhancement of rural health networks are eligible under this grant program. Also eligible are activities of statewide significance with a focus on Emergency Medical Services (EMS) and projects from organizations that provide statewide Advanced Trauma Life Support (ATLS) certification.

State Grants & Loans

Eligible applicants for Flex grant funds are: Critical Access Hospitals, rural hospitals with 50 or fewer beds, rural health networks (applicants must be nonprofit or local government entities), rural EMS organizations, and organizations that provide statewide ATLS certification. Appropriate activities include:

- Establishing community and regional collaboration or networking partnerships
- Assessing and implementing health system needs and improvements such as:
 - mental health services integration; disparities in access or outcome;
 - healthy aging interventions; discharge planning or other continuum of care projects; workforce projects; new services; or establishing a Rural Health Clinic or a Federally Qualified Health Center
- Strengthening and integrating local EMS systems, especially through efforts targeted at recruitment/retention, reimbursement and restructuring.
- Undertaking quality improvement initiatives
- Developing performance improvement initiatives such as information and technology system development, workforce retention and performance projects and benchmarking projects to ensure key elements of quality healthcare are met
- Implementing community development efforts such as Rural Health Works.
- Developing and providing training and resources that meet requirements for Minnesota State Trauma Designation of providers who work in CAHs (since the Flex Program already supports CALS, these proposals must be from organizations authorized to certify providers in ATLS.)

The total amount available for flex grants is \$253,880. Of that, at least \$78,880 will be reserved first for EMS applications, then awarded to others if not allotted fully to EMS projects. The maximum for any grant is \$25,000. **All applications must be received by December 15, 2008.** Applications are available on the Office of Rural Health and Primary Care Web site at:

State Contracts

Informal Solicitations: Informal solicitations for professional/technical (consultant) contracts valued at over \$5,000 through \$50,000, may either be published in the *State Register* or posted on the Department of Administration, Materials Management Division's (MMD) Web site. Interested vendors are encouraged to monitor the P/T Contract Section of the MMD Web site at www.mmd.admin.state.mn.us for informal solicitation announcements.

Formal Solicitations: Department of Administration procedures require that formal solicitations (announcements for contracts with an estimated value over \$50,000) for professional/technical contracts must be published in the *State Register*. Certain quasi-state agency and Minnesota State College and University institutions are exempt from these requirements.

Requirements: There are no statutes or rules requiring contracts to be advertised for any specific length of time, but the Materials Management Division strongly recommends meeting the following requirements:

- \$0 - \$5000 does not need to be advertised. Contact the Materials Management Division: (651) 296-2600
- \$5,000 - \$25,000 should be advertised in the *State Register* for a period of at least seven calendar days;
- \$25,000 - \$50,000 should be advertised in the *State Register* for a period of at least 14 calendar days; and
- anything above \$50,000 should be advertised in the *State Register* for a minimum of at least 21 calendar days

Real Estate & Construction Services

Notice of Request for Proposals (RFP) for Professional Services to Provide Energy Improvement Program Services

NOTICE IS HEREBY GIVEN that the Department of Administration, Real Estate and Construction Services (“State”) has issued a request for proposals for Minnesota registered engineers or firms with registered engineers to provide technical assistance to the State to develop a program to identify and implement energy improvement projects for state buildings and facilities in order to: 1) achieve energy conservation and efficiency goals; 2) increase use of clean energy sources; and, 3) reduce greenhouse gas emissions from state-owned facilities. The contract for these services would extend for up to a five-year period. These projects will be varied in nature and scope and will involve developing and implementing an energy improvement program.

The purpose of the RFP is to execute a contract for:

a. **Energy Improvement Program Services.** The tasks and scope of services required are included in the Request for Proposal (RFP). The Request for Proposal may be found online at: www.admin.state.mn.us/recs (Click on “Construction Services” and “Solicitations and Announcements”). Copies of the RFP may also be requested from:

Contracts Coordinator
Real Estate and Construction Services
309 Administration Building, 50 Sherburne Avenue
St. Paul, MN 55155
Phone: (651) 201-2372

Unless otherwise provided in *Minnesota Statutes* § 16B.33, the following guidelines apply when using the Contract: Construction projects requiring a primary designer and will have an estimated cost of construction no greater than \$2,000,000.00; or a study, report, or predesign for a state agency planning project will have a consultant estimated fee no greater than \$200,000.00. Primary Designers for Projects to construct, erect, or remodel a building with an estimated cost in excess of these amounts will be selected by the State Designer Selection Board in accordance with *Minnesota Statutes* § 16B.33.

The State reserves the right to cancel this solicitation if it is considered to be in its best interest. The RFP is not a guarantee of work and it does not obligate the State to award any contracts. The State reserves the right to discontinue the use or cancel all or any part of the RFP if it is determined to be in its best interest. All expenses incurred in responding to this notice are solely the responsibility of the responder.

Advertisement for Request for Proposal for Architect/Engineer Design Services: Sealed Bids for Phelps Hall HVAC Improvements Project

The purpose of this Request for Proposal (RFP) is to evaluate and select a design team to provide architectural and engineering consulting services for **HVAC Improvements for Phelps Hall**, located on the main campus at **Winona State University, Winona, Minnesota**.

Phelps Hall is one of the oldest buildings on the main campus at Winona State University. Throughout its nearly 90 years, Phelps Hall has seen a lot of change. Interior spaces have been modified, altered, and reallocated to serve the needs of various departments with the University. Unfortunately, the majority of the building's HVAC systems have not been changed to meet the needs of the occupants. Much of the original ductwork remains in place, as well as the original air handling unit. Air conditioning, primarily, is accomplished through window air conditioning units. Problems include excessive outside air infiltration, poor air circulation, poor return air design, hot and cold zones, lack of temperature control, and equipment that has reached the end of its useful life expectancy.

The project cost summary is as follows:

HVAC Project Cost	\$1,801,100
Electrical Upgrade Project Cost	\$ <u>150,000</u>
Estimated Project Costs	\$1,951,100

A **Pre-Proposal Project Information meeting for all prime firms** has been scheduled for **1:00 p.m. on Monday, November 3, 2008**, in Dining Rooms E, F and G of Kryzsko Commons at Winona State University in Winona, Minnesota.

Sealed proposals must be received no later than: **2:00 p.m., Monday, November 24, 2008.**

Notice of Contract Availability for Contractor to Develop Technical Specifications for Energy Improvement Financing Program for Local Government

The Department of Commerce Office of Energy Security (OES) requests proposals for a contractor to develop the technical specifications to be used to select a contractor to deliver the Energy Improvement Financing Program for Local Government (aka Public Building Enhanced Energy Efficiency Program, or "PBEEEP").

OES expects work to begin early December 2008 and to be completed in February 2009.

A Request for Proposals (RFP) will be available for download on the Department's Web site and by e-mail request through November 10, 2008. Potential responders may request a hard copy of the RFP by mail. Requests for hard copies must be received by the Office of Energy Security no later than noon on November 9, 2008.

Department of Natural Resources (DNR) Division of Forestry Request for Information in Conducting Forest Management

1. INTRODUCTION

The purpose of the Request for Information (RFI) is for the Department of Natural Resources, to obtain information from vendors who might be interested in conducting forest management on select state owned lands in St. Louis, Lake, Cook and Koochiching Counties through a lease program. The lands are outside of state forests, scattered throughout these counties (see map).

2. OBJECTIVE

The objective of the Department of Natural Resources is to improve the productivity of scattered lands through more intensive management by the most cost effective means. The lease would provide for exclusive rights to biomass and timber resources for a 10-year lease period in exchange for lease and royalty payments to the State. DNR's interest is in accomplishing sustainable management objectives in accordance with a sustainable forest management plan. Following forest certification management principles and activities should result in more productive forest stands for the future.

3. TECHNICAL CONSIDERATIONS

The proposed lease lands are located in scattered parcels ranging from 20 to 200 acres, with a median size of approximately 80 acres. Total acres are approximately 8000. Parcels identified include conifer stands requiring precommercial thinning (~280 acres), upland and lowland brush sites (~2400 acres) and highly damaged and declining forest stands with low timber volume (~5300 acres).

3. INFORMATION BEING REQUESTED

- Vendor Qualifications
 - Provide a general description of land you may have managed and how many acres.
 - Include certifications. (Management of state land requires individuals to have dual forest certification capabilities [SFI & FSC], and use certified contractors)
- Would you be interested in state lands within a specific county or all counties?
- Provide ideas/suggestions for forest management lease terms.

4. RFI RESPONSES: Four (4) copies of the response should be submitted to the address shown below, no later than **4:00 PM Central Time, October 31, 2008**.

Department of Transportation (Mn/DOT) Engineering Services Division Notice of Potential Availability of Contracting Opportunities for a Variety of Highway Related Technical Activities (“Consultant Pre-Qualification Program”)

This document is available in alternative formats for persons with disabilities by calling Juanita Voigt at (651) 366-4774 for persons who are hearing or speech impaired by calling Minnesota Relay Service at (800) 627-3529.

Mn/DOT, worked in conjunction with the Consultant Reform Committee, the American Council of Engineering Companies of Minnesota (ACEC/MN), and the Department of Administration, to develop the Consultant Pre-Qualification Program as a new method of consultant selection. The ultimate goal of the Pre-Qualification Program is to streamline the process of contracting for highway related professional/technical services. Mn/DOT awards most of its consultant contracts for highway-related technical activities using this method, however, Mn/DOT also reserves the right to use Request for Proposal (RFP) or other selection processes for particular projects. Nothing in this solicitation requires Mn/DOT to use the Consultant Pre-Qualification Program.

Mn/DOT is currently requesting applications from consultants. Refer to Mn/DOT’s Consultant Services web site, indicated below, to see which highway related professional/technical services are available for application. Applications are accepted on a continual basis. All expenses are incurred in responding to this notice will be borne by the responder. Response to this notice becomes public information under the Minnesota Government Data Practices.

Consultant Pre-Qualification Program information, application requirements and applications forms are available on Mn/DOT’s Consultant Services web site at: <http://www.dot.state.mn.us/consult>.

The *State Register* also serves as a central marketplace for contracts let out on bid by the public sector. The *State Register* meets state and federal guidelines for statewide circulation of public notices. Any tax-supported institution or government jurisdiction may advertise contracts and requests for proposals from the private sector. It is recommended that contracts and RFPs include the following: 1) name of contact person; 2) institution name, address, and telephone number; 3) brief description of commodity, project or tasks; 4) cost estimate; and 5) final submission date of completed contract proposal. Allow at least three weeks from publication date (four weeks from the date article is submitted for publication). Surveys show that subscribers are interested in hearing about contracts for estimates as low as \$1,000. Contact editor for further details.

Dakota County Transportation Department Notice of Request for Proposals (RFP) for Transportation System Study Services

NOTICE IS HEREBY GIVEN That the Dakota County Transportation Department requests proposals for professional services from qualified consultants to conduct a transportation system study of local roadways, county highways and trunk highways in Rosemount and Empire Township and surrounding adjacent areas.

The purpose of this study is to develop a plan that addresses transportation issues within this area of Dakota County in a coordinated and balanced manner with area land use development and land preservation plans. The University of Minnesota is currently considering conceptual residential, industrial, and commercial land use plans for 5,000 acres, known as UMore Park, in this area. Also, the State has established 2,800 acres, known as Vermillion Highlands, in this area for research, recreation and wildlife. This transportation system study will allow Dakota County, the City of Rosemount, Empire Township, the University of Minnesota, the Department of Natural Resources, and the public to develop a transportation system together, over time, that will result in safe and efficient travel in the area as cost-effectively as possible, while at the same time recognizing agency land use development and preservation land use objectives.

The following is the anticipated solicitation schedule:

Issue Request for Proposals:	October 20 th , 2008

University of Minnesota

Request for Proposal for Sand & Aggregate Mining Partner(s) at UMore Park, City of Rosemount and Empire Township, Minnesota

Project # 11021-2008-1020

I. NOTICE OF REQUEST FOR PROPOSAL

The University of Minnesota desires to identify and contract with one or more mining partners to do the mining and reclamation of large tracts of UMore Park which is currently an undeveloped agricultural research property. Consecutive with and subsequent to mining, UMore Park may be developed into a dynamic, University-founded community for the 21st century.

The University wants to recover this regionally significant sand and gravel resource for the benefit of the larger community, at the same time as generating financial support for the University's mission.

Mining is an interim use and the reclamation of land post-mining can be used to further increase the interest and opportunity for subsequent development.

The University seeks a mining partner or partners who will perform to the highest operating standards at the best possible rate of financial support to the University. The mining partner(s) must demonstrate the capacity, track record and planning to show that they will be the best suited to what could be a several decades-long partnership with the University. Operations must be conducted in a manner consistent with the principles established by the Board of Regents.
